

SEPA 2023 Pre-Conference Line-up

Day 1 Pre-conference – November 20, 2023

Presenters: Ray Unrau and Bob Brown, Saskatchewan Public Safety Agency.

Title: "Community Hazard Risk Vulnerability Assessment for Critical Infrastructure Recovery Operation"

Synopsis: Without a strong emergency exercise program, Emergency Measures Coordinators find themselves in a perpetual cycle of 'babysitting the binder.' This Exercise Design Workshop will provide you with the design tools and knowledge needed to lead the design process as well as the practical activities associated with the emergency exercise on Game Day. We will spend the morning reviewing the concepts of exercise design and introduce a standardized set of tools that ensure your exercise will ensure a valuable, useful and safe experience on which to continue building the emergency management program in your community.

Day 2 Pre-Conference – November 21, 2023

Presenter: Terri Lang, Environment and Climate Change Canada.

Title is "Summer Severe Weather Spotter and Safety Training"

Synopsis: An overview of Summer Severe Weather Spotting in all its forms along with safety tips.
